

Clean, Safe, Accessible Campus for Students and Staff

CUPE 2361 members, working as trades, maintenance and custodial workers are united in our concerns about the understaffing crisis caused by low wages and high workloads. More support staff are needed to provide high quality services in residences, classrooms, offices, labs, and washrooms. Students and all members of our university community deserve clean, safe, and accessible campus spaces. We call on the administration to support quality campus services and address the staffing crisis through higher staffing levels and negotiating fair wages.

STOP CONTRACTING OUT OUR WORK!

We, the united transit workers of ATU local 569, are standing in solidarity with each other in telling the City of Edmonton and St. Albert to STOP the contracting out of bus cleaning jobs, DATS and Fare Maintainers. We are united for our community and united for respect on the job through a strong contract that keeps transit public.
